BRAND GUIDELINES

The Brief

The Tone & Style

Playfulness

Open. Inviting. Receptive. Creative.

Looking at the world sideways, being curious, improvising.
Playing well with others; being open for the pass. Providing
delightful experiences to our users.

Solidarity

Unity. Mutual support. Cooperation.

Taking the interests of all into account. Seeing ourselves
as part of a team rather than as a collection of individuals.
Seeking harmony and community.

Thriving

Living fully. Flourishing.

Taking pleasure in the exercise of your craft and playing
with your whole heart.
Engaging your responsibilities with drive, inspiration
and presence.

ICON GUIDELINES

The Icon

The icon is composed of a triangle with soft edges making it appear like a play button

The button seems to be faced at an angle sloping down to the bottom right.

The icon is legible at most sizes, and a small version is provided for micro applications.

The three basic shapes used in the icon, a triangle, circle and oval can be extracted and used as graphic elements.

Icon

Grid

The Logo

The freevision logo is composed of an play cell button and a logotype set in Nunito Light and Bold

The horizontal logo is the primary logo and should be used in most instances.

The freevision logo is for large-scale use. Avoid using at small sizes, as it can become illegible.

Always use the logo files provided. Do not re-create.

The Logo Use (small)

There is a specific logo for small sizes and should be used when the logo is rendered at a size between 50px wide and 150px wide.

The small logo mark should be used at a size between 15px tall and 20px tall.

Only the horizontal logos are appropriate for small use. Do not use the stacked logo for small use.

90px wide, approx.

(or approx. 1.25 inches)

20px height, approx.

(or approx. 0.28 inches)

LOGO

USE GUIDELINES

The Logo Use (background colour)

The logo can be used on colour backgrounds, ensure that text is in white at all time.

The logo can be used on white backgrounds ensure that the text is in black all the time.

The Icon word mark should remain in white on all backgrounds.

The Logo Use (one colour)

The one-color logo should be used only on photographs and color backgrounds within the freevision color palette.

The one-color logo should be only on black colorways.

If using an aubergine background, we strongly prefer to use the full-color logo. However, if design limitations conflict with this, then the logo should appear in white on aubergine.

The Logo Use (not to do)

Do not crop the logo

Do not distort the logo

Do not change the transparency of the logo

Do not use drop shadows or any other effects

Do not shuffle around the colours of the icon

Do not shuffle around the colours of the icon

Do not use different colors

Do not re-create using any other typeface

Do not change the size or position of the octothorpe and logotype

Do not rotate any part of the logo

BRAND
COLOUR

The Colour Palette

Use these colour proportions in any layout or collateral design. Purple, Orange, Blue, Pink and Maroon can be used as accent colours in the proportions shown on the right.

Use only black or white text on core colours as outlined on the right.

Do not interchange the use of black and white text according to preference, as these colour combinations are specifically approved for accessibility.

BRAND TYPOGRAPHY

The Font Use

Freevision headlines are set in Nunito Medium. When using Nunito to create headings on embedded or printed collateral for Freevision, always typeset it with optical kerning, set the tracking to 0, and set in sentence case.

Do not set in all caps. When using Nunito to typeset headings on the web, set the letter spacing to -1px for smaller headlines and -2px for larger headlines.

Note: If converting G Slides to Keynote or PowerPoint, use Nunito throughout for headlines and body text. If the presentation originates in Keynote or PowerPoint, follow regular brand font guidelines.

Nunito

Designed by Vernon Adams, Cyreal, Jacques Le Bailly

Nunito is a well balanced sans serif typeface superfamily, with 2 versions: The project began with Nunito, created by Vernon Adams as a rounded terminal sans serif for display typography. Jacques Le Bailly extended it to a full set of weights, and an accompanying regular non-rounded terminal version, Nunito Sans.
